

## GLYCOLINE

Powder

### Complementary feed for bovine, ovine and caprine

#### Composition:

Propylene glycol, Wheat, Glycerol\*

(\* ) Produced from genetically modified rapeseed.

#### Analytical values:

Moisture:	4.8 %	Crude ash:	38.2 %
Crude protein:	1.2 %	Insoluble ashes in HCl:	22.6 %
Crude fiber:	0.3 %	Sodium:	0.2 %
Crude fat:	0.2 %	Magnesium:	1.5 %

#### Additives (/kg):

##### VITAMINS

3a315 Niacinamide 5 000 mg

##### TRACE-ELEMENTS

3b304 Cobalt (Coated granulated cobalt (II) carbonate) 50 mg

##### BINDERS ANTICAKING AGENTS

1g563 Sepiolitic clay 165 000 mg

##### AROMATIC SUBSTANCES

Mixture of flavouring compounds  
2b09211 Glyceryl tributyrate 68 mg  
2b09751 Isopentyl salicylate 14 mg

##### PRESERVATIVES

1a282 Calcium propionate 75 000 mg  
Propionic acid equivalent 59 250 mg

#### Instructions for use:

##### DAIRY COWS

In periods of energy deficit:

- 200 to 300 g / animal / day for 21 days before calving.
- 250 to 500 g / animal / day for 30 days after calving.
- 200 to 350 g / animal / day until breeding.

##### DAIRY EWES AND GOATS

In periods of energy deficit:

- Until 60 g / animal / day for 30 days before and up to 30 days after lambing.

The use of this feed is strictly limited to the indicated species.

*The simultaneous use of different organic acids or their salts is contraindicated where one or more of them is used at or near the maximum permitted content.*

#### Product features and packaging:

Presentation: powder.

Packaging: bags.

Best used within 24 months after manufacturing date.

Store in a cool, dry place, protected from direct sunlight, in its original packaging.

#### Certifications:

Certified GMP+ FSA.

Manufactured in an OQUALIM-RCNA - certified site.
