

GLYCOLINE

Complementary feed for bovine, ovine and caprine.

Composition:

Wheat gluten feed, Wheat, Propylene glycol, Glycerol*

This feed contains glucose precursors. () Produced from genetically modified rapeseed.*

Analytical values:

Moisture:	7.5 %	Insoluble ashes in HCl:	15.4 %
Crude protein:	6.3 %	Sodium:	0.1 %
Crude fiber:	2.2 %	Magnesium:	0.7 %
Crude fat:	1.5 %	1.2 propanediol:	13.7 %
Crude ash:	26.7 %		

Additives (/kg):

VITAMINS

3a315 Niacinamide 5 000 mg

TRACE-ELEMENTS

3b304 Cobalt (Coated granulated cobalt (II) carbonate) 50 mg

BINDERS ANTICAKING AGENTS

1g563 Sepiolitic clay 70 000 mg
1g568 Sedimentary clinoptilolite 40 000 mg

AROMATIC SUBSTANCES

Mixture of flavouring compounds 252 mg
2b09014 Benzyl acetate

PRESERVATIVES

1a282 Calcium propionate 62 500 mg
Propionic acid equivalent 49 375 mg
1a330 Citric acid 200 mg

ANTIOXYDANTS

1b310 Propyl gallate 10 mg
E321 Butylhydroxytoluene (BHT) 50 mg
1b320 Butylated hydroxyanisole (BHA) 50 mg

Instructions for use:

DAIRY COWS

In periods of energy deficit:

- 300 to 500 g / animal / day for 21 days before calving.
- 350 to 600 g / animal / day for 30 days after calving.
- 300 to 500 g / animal / day until breeding.

DAIRY EWES AND GOATS

In periods of energy deficit:

- Until 100 g / animal / day for 30 days before and 30 days after lambing.

The use of this feed is strictly limited to the indicated species.

The simultaneous use of different organic acids or their salts is contraindicated where one or more of them is used at or near the maximum permitted content.

Product features and packaging:

Presentation: pellets.

Packaging: bags.

Best used within 24 months after manufacturing date.

Store in a cool, dry place, protected from direct sunlight, in its original packaging.

Certifications:

GMP+ FSA assured.

Manufactured in an OQUALIM-RCNA - certified site.
