

PRODUCT INFORMATION SHEET

M-MOBILIZE®

DESCRIPTION

A source of live (viable), naturally occurring microorganisms for swine, poultry, dairy and beef.

GUARANTEED ANALYSIS

Analysis	Specifications
Total Microbial Count ¹ (minimum)	1.00 x 10 ⁷ CFU/g

¹ The total microbial count refers to the final count of all *Bacillus* microorganisms (*Bacillus subtilis*)

INGREDIENTS

- Hydrated Sodium Calcium Aluminosilicate
- Calcium Carbonate
- Yeast Extract
- Maltodextrins
- Dried *Bacillus subtilis* Fermentation Product
- Sodium Aluminosilicate
- Dried *Lactobacillus plantarum* Fermentation Product
- Dried *Pediococcus acidilactici* Fermentation Product

MIXING DIRECTIONS

- Swine: Mix at the rate of 750 grams of M-MOBILIZE® per metric ton (1.5 lbs per US ton) of complete feed.
- Poultry: Mix at the rate of 500–750 grams of M-MOBILIZE® per metric ton (1.0–1.5 lbs per US ton) of complete feed.
- Dairy & Beef: Mix at the rate of 750 grams of M-MOBILIZE® per metric ton (1.5 lbs per US ton) of complete feed. Equivalent to 15 grams of M-MOBILIZE® per head, per day.

STORAGE AND HANDLING

Store in a cool, dry place, out of direct sunlight. If a full bag is not utilized, seal tightly to avoid moisture. Avoid contact with skin and inhalation of dust.

PHYSICAL PROPERTY

Light-to-dark brown/tan powder; inherent differences in color could appear in final product appearance due to the natural ingredient composition but has no impact on product quality or efficacy.

BEST IF USED BY

36 months from date of manufacture. Refer to product label or lot number for the date of manufacture.

PACKAGE SIZE AND MATERIALS

25 kg (55.1 lbs) polyethylene lined multi-layer paper bags, 40 bags per pallet.

WITHDRAWAL PERIOD

No withdrawal period is required for this product.
