

PRODUCT INFORMATION SHEET STRATERIS® ECL

DESCRIPTION

A source of live (viable), naturally occurring microorganisms for replacement heifers and dairy cows.

GUARANTEED ANALYSIS

Analysis	Specifications
Total Microbial Count ¹ (minimum)	4.80 x 10 ⁸ CFU/g

¹ The total microbial count refers to the final count of all *Bacillus* microorganisms (*Bacillus subtilis* + *Bacillus pumilus*)

INGREDIENTS

- Hydrated Sodium Calcium Aluminosilicate
- Calcium Carbonate
- Yeast Extract
- Maltodextrins
- Dried *Bacillus subtilis* Fermentation Product
- Sodium Aluminosilicate
- Dried *Bacillus pumilus* Fermentation Product
- Dried *Lactobacillus plantarum* Fermentation Product
- Dried *Pediococcus acidilactici* Fermentation Product

FEEDING DIRECTIONS

Feed at the rate of 10-15 grams of STRATERIS® ECL per head per day.

STORAGE AND HANDLING

Store in a cool, dry place, out of direct sunlight. If a full bag is not utilized, seal tightly to avoid moisture. Avoid contact with skin and inhalation of dust.

PHYSICAL PROPERTY

Light-to-dark brown/tan powder; inherent differences in color could appear in final product appearance due to the natural ingredient composition but has no impact on product quality or efficacy.

BEST IF USED BY

36 months from date of manufacture. Refer to product label or lot number for the date of manufacture.

PACKAGE SIZE AND MATERIALS

25 kg (55.1 lbs) polyethylene lined multi-layer paper bags, 40 bags per pallet.

WITHDRAWAL PERIOD

No withdrawal period is required for this product.
