

FACILITY CARE

**DEALING WITH STUBBORN BACTERIA AND VIRUSES IN YOUR FACILITY?
WE HAVE THE ANSWER!**

PURE Bioscience products are the ultimate solution for effective and efficient cleaning and disinfection. With our revolutionary, patented Silver Dihydrogen Citrate (SDC) molecule, PURE offers a powerful defense against microbial threats.

Cleaning and Disinfection in Schools, Childcare and Commercial Buildings

- **Outbreak Prevention:** Effective cleaning practices help prevent the spread of infectious diseases, reduce the risk of disease outbreaks and keep people SAFE.
- **Reduced Absenteeism:** Regular cleaning & disinfection in schools has been linked to reduced absenteeism among students and staff. [Sickbert-Bennett, E.E., et al. (2013)]
- **Health and Productivity:** Clean and well-maintained workplace environments contribute to better employee health and productivity, and protect guests, customers and families.
- **Indoor Air Quality:** Effective cleaning practices play a crucial role in maintaining good indoor air quality which is especially important for those with allergies and asthma.
- **Employee Satisfaction and Retention:** A survey conducted by the National Air Filtration Association revealed that over 90% of employees consider the cleanliness of their workplace to be important for their overall job satisfaction.

At PURE, we understand that proper facility care is paramount, especially in childcare facilities, schools, and commercial settings. That's why we have developed SDC-based products that make cleaning and sanitizing quick and easy, so you can be sure your facility is protected. By partnering with our customers, PURE offers customizable solutions that support your sanitation efforts and infection prevention programs.
